HEALTH

- The Green Party rejects the idea that health should be run as a profit business.
- The Green Party will actively oppose and seek to reverse any public service health policy reforms which lead to a two or multi-tier health services with uneven standards and service provision.
- The Green Party will actively seek ways of ensuring that healthcare skills are shared between counties, for example through exchange opportunities to students and qualified staff.
- The Green Party will increase funding to the 'Health Promotion Agency for Northern Ireland' aimed at increasing the awareness of benefit and responsibilities individuals can have on determining their health, through healthy lifestyle clothes.
- The Green Party believes that we must protect and support our most vulnerable in society; this requires a balanced, integrated and holistic understanding and approach. Service provision to those with special needs should never be reduced or stopped to save Department money.
