TRANSPORT

- The Green Party will shift transport investment from private transport to public transport to make up for decades of underinvestment.
- Introduce integrated ticketing, making public transport more convenient, accessible and affordable.
- Oppose the runway extension at George Best Belfast City Airport on economic, environmental and health grounds.
- Support light rail systems for urban centres and interconnection between these, as well as re-opening rail connections to airports.
- Extend the national cycle network to provide safe commuting routes.
